In real life the gamification uses gaming principles to teach problem solving skills and decision making. Gamification leads to the development of innovative concepts and technologies which will add value to businesses and the world. Gamification can be a future for the e Learning.

Why Gamification :

1. Gamification Can Motivate Learners.
2. Can Be Used To Personalize Learning Experiences.
3. Can Solve Real Time Problems.
4. Rewards Leads Involvement of Learner.

Theme

The poster represents the evolution process of human learning from zeroth level to Gamification. Recall capacity will increase up to 90% with amazing Learning Experience and Learning Environment. Gamification of eLearning has becoming a new approach to engage the digital learner in an efficient way.

Importance of Gamification:

1. Better Learning Experience
2. Better Learning Environment
3. Instant Feedback
4. Engages & Entertains Learner.
